6 FILES EXCHANGED

The File Transfer System provides a standardized way for MDCH to exchange files with outside sources (users, electronic submitters) eligible to bill MDCH for health care services or submit other electronic data. There are two types of files exchanged in claims transactions: (1) files electronic submitters send to MDCH and (2) files MDCH sends to electronic submitters. MDCH sends two types of files to electronic submitters: an acknowledgment for the receipt of a submission and remittance advice regarding each individual claim.

NOTE: The Michigan Department of Community Health is actively working toward implementing the federally mandated Health Insurance Portability and Accountability Act (HIPAA) transaction standards on October 16, 2003. Once the HIPAA standards go into effect, MDCH will only accept HIPAA-compliant transactions. Complete implementation guides for all HIPAA transactions can be obtained through the Washington Publishing Company at www.wpc-edl.com.

6.1 FILES ELECTRONIC SUBMITTERS SEND TO MDCH

6.1.1 Professional Claims
